STILLWATER.

Tuesday, August 8, 1865.

Union State Convention.

A Convention will be held at Ingersoll Hall in St. Paul on Wednesday, September 6, 1865, representing the electors who have given an unequalled support to the war for the Union, who hold to the doctrine of the Declaration of Independence that "all men are created equal" and "governments derive their just power from the consent of the governed," and who by their votes placed political control in the State and Nation into the hands of the present Administration, for the purpose of nominating candidates for State officers to be supported at the next general election, and for transacting any other business that may be deemed for the public good.

The popular vote of last fall is taken as the basis of representation—400 entitling to one delegate, and every fraction, if over 200 votes, entitling to one more.

Each Regiment of Minnesota troops remaining in the service at that date will also be admitted to representation in the Convention in the same ratio of delegates to the number of votes in the organization.

The delegation will be as follows, subject to the action of the Convention with respect to unorganized counties:

Population of Washington County.

According to the enumeration, as returned to the County Auditor, the population of Washington County is 6,387.

Whole number of families, 1,265, making an average of between five and six persons to each family.

As compared with the census of 1860 it shows a gain of about 800.

The following table shows the present population of each town in the County, with the number of families, and also the population of each town in 1860:

	1865	1860
Afton.....	120	55
Barnes.....	70	40
Carleton.....	120	55
Denmark.....	60	40
Grant.....	28	17

Newport.....	28	17
Oakdale.....	100	55
Stillwater Town.....	44	27
City.....	413	215
Woodbury.....	100	55
Total.....	1265	638

The number of families has not materially changed during the four years. The whole number in 1860 being 1,268, and now 1,265.

The greatest increase of population is in the town of Woodbury—showing a gain of 265 persons, or about 75 per cent.

The Cops of this State die hard. They even have the presumption to issue a call for a Convention to meet in St. Paul on the 16th inst., for the purpose of placing in nomination candidates for the highest positions in the State. It has been reported—but not believed—that the leaders of that sweet-scented clique intend to take strong ground in favor of negro suffrage.

An exchange suggests that the exercises be commenced by reading the platform adopted at the last Democratic State Convention, and copious extracts from the speeches of Gilman, Gorman, Dillon O'Brien and others, delivered last fall.

The editor of the *Unionist* having been censured by a correspondent for intimating that Jeff. Davis should be hung, replies:

"After the excitement has passed, and Jefferson Davis is hung, we may be sorry! But in all soberness let us say, if Jefferson Davis is not hung the hand that in this land ever signs a death-warrant should drop from its socket. If he is pardoned, let every prison door open.

The Le Sueur Statesman says the census returns for Le Sueur county are all in except the town of Waterville, which is estimated, and foot up a population of 7,919. The population in 1860 was 5,300, showing an increase of 2,619, or within a small fraction of fifty per cent.

The public are anxious to obtain Jeff. Davis' pedigree. All the information we can give is that he was got by the 4th Michigan Cavalry.

A Ridiculous Charge.

The editor of the *Mankato Union* has trumped up a foolish and ridiculous story accusing our present State Treasurer, Mr. Schaeffer, of sending five hundred dollars to Markato for the purpose of securing the delegates of Blue Earth county to his support at the forthcoming convention.

We can assure our Mankato friend that if he expects to hoist any of his friends into power on the back of such unreasonable stories as that, he was never so much mistaken in his life. CHARLES SCHAEFFER is too well known throughout the State to have such a lie as that go down.

For Heaven's sake, Mr. *Union*, when you get up another lie, invent one with some grains of reason or sense about it, and one that some body will believe.

Mr. Schaeffer publishes a characteristic and gentlemanly card in the *Saint Paul Press*, in which he very mildly states (what every body acquainted with him knew before,) that the accusation is utterly devoid of truth.

The Democratic Convention.

Speaking of the call for a Democratic Convention at St. Paul, the editor of the *Central Republican* is reminded of the soldier we read of some time during the war, who after running two days from a battle field, set down on a log to rest, and looking his legs and person over so glorified thus: "Well, I'm whittled here, and I'm pretty badly demoralized, but thank God, I ain't scattered."

Vote of the Soldiers.

Gov. Miller informs the *Press* that in order to reach the soldiers still in the field before election, it will be necessary to send the Commissioners early in September. They will accordingly be sent on the 8th of September, and the District and County tickets should be in the hands of the Secretary of State by the 5th. It is anticipated that the Third and Fifth Infantry, Brackett's Battalion, and the Heavy Artillery will remain in the service until after election.

A True Man.

From the first inception of the Irish rebellion we have ever entertained the most exalted opinion of THOMAS FRANCIS MEAGHER; but never until since his arrival in our own State, have we been so fully convinced of his patriotism, loyalty and statesmanship. We look upon him as one of nature's noblemen. An officer and soldier of tried courage, gallantry and daring—a statesman of exalted intellect—an orator of wonderful power and eloquence—a christian whose example we all might follow.

To show the opinion of the General on political questions, and especially upon the question of negro suffrage, we quote the following from his speech at St. Paul, in which he administered to the copperheads a scathing rebuke, and elevated himself in the respect and opinion of all decent men, and friends of justice everywhere:

"Nor should we be less liberal—less just in fact—to our black comrades of the battle field. By their desperate fidelity to the fortunes of the nation in a fierce time of war—a fidelity to all the more heroic that they fought in chains and with the devotion of the noblest martyrs repaid with torrents of generous blood, the proscription and wicked bondage in which, under the sanction of the State and stripes, they have been for generations held—by their desperate fidelity and splendid soldiering, such as at Fort Wagner and Fort Hudson gave to their bayonets an irresistible electricity, the black heroes of the Union army have not only entitled themselves to liberty but to citizenship, and the democrat who would deny them the rights for which their wounds and glorified colors so eloquently plead, is unworthy to participate in the greatness of the nation, whose authority these disfranchised soldiers did so much to vindicate."

Call for a Union State Convention.

We publish elsewhere the call of the State Central Committee for a Union Convention to be held at St. Paul on 6th of September. At this convention candidates for the offices of Governor, Lieutenant Governor, Secretary of State, Treasurer and Attorney General, will be nominated.

The population of Winona, according to the enumeration just taken, is 4,439. The number of families is 751—giving an average of six persons to each family.

In 1860 the population of Winona was 2,900, showing a gain of 1,539 persons, or about 53 per cent.

The SEVENTH REGIMENT.—A detail of the officers and ten privates—one from each company of the Seventh Regiment arrived yesterday. We learn that they are sent on in advance, to prepare the muster out rolls for the Regiment.—*Pioneer*, 5th.

HARVEST.—The harvesting of barley and rye has commenced. Wheat will be ripe generally in a couple of weeks. The crops are looking splendidly, and our farmers are feeling decidedly cheerful.—*Hudson Star & Times*.

Col. Wm. R. Marshall.

The *Winona Republican* of the 2d inst., contains the following correspondence:

ALABAMA, July 5, 1865.

Col. Wm. R. Marshall:

DEAR SIR:—The undersigned earnestly request that you allow your name to be presented before the approaching State Convention as a candidate for Governor of our State.

We know and appreciate your motives in declining to enter the arena of politics, but in thus soliciting you we represent the wishes of the Minnesota soldiers in this command; and, further, feel confident that your nomination would be most acceptable to those at home, who have so long and pleasantly associated with you as a citizen.

We remain, Colonel, Very Respectfully Yours,

The above letter is signed by Gen. Hubbard and seventy-seven officers and soldiers. The following is Col. Marshall's response:

SELMA, ALA., July 15, 1865.

To Brig. Gen. Hubbard, Col. S. P. Jenison, Lt. Col. Wm. Marshall, and others:

GENTLEMEN:—I have received your kind letter assuring me that it is the general wish of the gallant men of our State, with whom I have had the honor to serve in the Southwestern army, that I should be a candidate for Governor of Minnesota.

In reply I consent that my name may go before the nominating convention. Deeply gratified for this expression of esteem and confidence upon the part of my brothers in arms,

I am very truly, Your obedient servant, W. R. MARSHALL.

The Crops of Southern Minnesota.

A correspondent of the *St. Paul Press* who has traveled pretty extensively through Southern Minnesota, writes to that paper the result of his observations. We copy a portion of his remarks.

1st. Our fields were never so heavily loaded with the waving corn as now. It is evident that we have more acres under cultivation, and grain never looked better, than now; this is especially true of wheat, oats, barley and potatoes.

2d. The crop of oats is considerably larger in proportion to what, than for several years. There is less corn growing than in former years.

3d. The usual amount of breaking has been done, but it is mainly done on newly opened claims.

4th. I have examined as fine young apple orchards in that portion of Minnesota, as can grow in New England. Some of these are beginning to bear fruit, and more young apples are hanging on the trees now than in previous years.

5th. Our farmers are experimenting with the new varieties of wheat, black oak, wild plum, and cotton wood, in some cases are doing well.

STATE ITEMS.

TELEGRAPH OFFICE ON THE LEVEE.—We noticed a few days since that the Telegraph Company were fitting up a branch telegraph office on the lower levee. It is now in complete working order, and ready for business. Mr. G. R. Cole is the operator, and is a skillful and correct telegrapher.—*Pioneer*.

HAYING.—Farmers and others are busily engaged in getting up their winter stock of hay. The weather has been quite favorable for this purpose with the exception of a few days rain, which have occurred recently. Both tame and wild hay is represented as being good this year and yielding abundantly.—*Taylor Falls Reporter*.

A very heavy Norwegian immigration is now pouring into this State. Judging from personal observation, and from the accounts of those who have arrived, there are more than a hundred immigrants, direct from Norway and Sweden, have landed at the various river towns in Minnesota within the past two weeks. Of this number a large party have stopped at Winona, designing to take up their residence in the neighboring country. A large party, numbering fifty or sixty, landed here yesterday. They all arrived with them a good many household effects, and not a little money. This class of immigration will do much toward developing the agricultural resources of Minnesota.—*Winona Republican*.

CROPS, RAIN AND RIVER.—The crops in this county were never better than they are this season, but some complaint is heard of the grain, some, and prevents the use of machines. Fears are entertained that the crops will suffer damage, unless fair weather sets in soon. The rain of Tuesday night and Wednesday, was a perfect sea of water, and raised the river more than a foot; but as everything that goes up must come down, we presume the river will recede in a few days.—*Mankato Union*, 4th.

AN EXCURSION.—The G. H. GRAY brought up a large Excursion party from Stillwater on Wednesday last. The party was accompanied by the Cornet Band of that city, which enlivened the occasion with music "soft and sweet." At Taylor's Falls the company and adjutant of the 1st Regt. of Minn. were entertained and kept up till a late hour. The whole entertainment was managed in excellent style, and all went "merry as a school boy." Capt. Isaac Gray and Clerk Brown went great praise for their passengers for their polite and earnest attention to their wants during the entire trip.

On the whole it was a pleasant affair, and we trust the Stillwater boys will repeat the same many times.—*Reporter*.

NEWS ITEMS.

—Father Taylor, the sailor preacher, long one of the notabilities of Boston, died in Brooklyn, New York, on Monday, 24th ult., aged 64. He was a schoolmate of Wm. Wirt, and the oldest chaplain in the navy. He possessed a vivid imagination, great warmth of feeling, and a homely vigor and originality of language which made him, when at the height of his powers, a very effective preacher. His last sermon was on board the Hartford, before Admiral Farragut.

—A policeman in Buffalo has been fined five dollars for forcing a gentleman in a street railroad car to vacate his seat in favor of a lady. The Judge held that ladies had no more legal rights than gentlemen, and that the yielding of seat to the former was simply an act of courtesy, which, he remarked, the ladies do not generally appreciate.

—Ex-Major General Prentiss, of Quincy, Ill., caned a young man last week by the name of Bent, whom he found walking with his daughter contrary to orders. He was fined five dollars for the assault. We predict a wedding as the result of this violent opposition.

—It is said that when Barnum asked Horace Greeley what he should do after his museum was burned up, the philosopher advised him to take life easy and go a fishing. "I've been waiting to go a fishing for thirty years," said H. G., "and haven't had a chance yet."

—During the month of June last, \$29,816,755 of naval prize money was distributed from the fourth auditor's office, in sums ranging from \$5,000 to \$30,000.

—General Turner, commanding the district of Hennepin, has issued an order declaring the recent municipal election in Richmond null and void, and prohibiting the parties elected from exercising the duties of their offices.

—The population of La Crosse city floats up a total of 5,013, being about 1,200 gain since the census was taken in 1860.

—George F. Robinson, the soldier who saved Secretary Seward's life, was married on the 13th ult., at Springfield, Maine.

It is proposed to give him a substantial testimonial. A number of Robinson's friends have arranged a plan for the sale of his photograph, and the circular urging a subscription to them is signed by Gen. Grant, Gen. Howard, Secretary McCulloch, Senator Wilson, and others. Different styles of photographs may be had at 50c, \$2 and \$5 each, and communications should be addressed to P. M. Clark, Washington, D. C. We commend the plan as a deserved tribute to a brave and disabled soldier.

—The Nashville *Press & Times* says the men who in Tennessee are making the outcry against the Franchise Law, are those who sympathized with the rebellion, but staid at home, and took the oath of amnesty as soon as the Union troops took possession of the State. The returned rebel soldiers make no fuss about the law.

—The income of Ex-Governor David Tod, after making all legal deductions, is \$64,230. Brian Hill is a better thing than the governorship.

—The *Past* Washington special says it is believed that Gen. Butler, who is there, is about to be assigned to a new command.

—The Hudson River Railroad is contemplating for their cleverness in recently killed a whole family—father, mother and child—all at once, so that there was nobody left to bring an action for damages.

The Butler Porter Fort Fisher quarrel appears to have been settled and the tomahawk buried. Gen. Butler and Admiral Porter have been observed on the street and on the President's grounds arm in arm and in most pleasant confidential converse.

TRIAL OF CHARLES HALDEN.—After a protracted trial before Justice Hartsorn and Cady, commencing Wednesday last, and ending on Monday evening last, after a very careful examination of the testimony, both Justices agreeing and bringing in a verdict of murder in the second degree and fixing the bail of the prisoner at \$3,000. The bail was given on Tuesday morning last, and the prisoner is now at liberty.—*Hunting Independent*, 3d.

Mr. Wolf, of this city, has picked and sold from the bushes in his garden this season eight hundred quarts of currants, besides probably two hundred quarts more used by his family, giving away, or remaining on the bushes. The bushes occupy less than one-half the ground of an ordinary sized village lot, or about 5-100th of an acre.—*Red Wing Argus*.

The consumption of beer is rapidly increasing in the United States. In 1860 the amount sold was eight millions of barrels. In 1864 the quantity used had increased to twenty-four millions of barrels, or about an average of a barrel apiece for every body.

Local and Miscellaneous News.

RAFTS.—The Tow-boat *Minnesota* has taken out this season from this place over seventy-five rafts; and it is estimated that enough have been taken out by other boats to swell the number to over one hundred.

CRANBERRIES.—We learn from the Taylor Falls Reporter that the prospect is good for a heavy crop of cranberries, unless some disastrous circumstances occurs to prevent it.

At a special meeting of the County Commissioners last week, an arrangement was made with Wm. Williams, Esq., to superintend the re-building of the bridge over Brown's Creek, which was washed away several months since.

SOLDIER'S BALL.—A ball will be given by the soldiers of Company C, Eighth Minnesota, at the Army Hall, on Thursday evening of this week, the 10th inst. All, whether citizens or soldiers, are cordially invited to attend.

The *Hudson Star & Times* says D. W. Armstrong of that city has purchased about 20,000 bushels of wheat in the past three weeks.

The same paper says 15,000 bushels of wheat were bought from wagons in that city during the past week.

RACE COURSE.—We learn that it is contemplated by the citizens to fit up a race course about a mile south of the city, near what is known as the Jones Foster house. We believe the ground has been selected and surveyed, and a sufficient amount raised to defray the expense of clearing up and preparing the ground.

WOOD.—Messrs. Butler & Dond have brought down several hundred cords of dry wood, which is piled on the levee, near their Warehouse. They are selling the best oak at \$5.00 and mixed at \$4.50. It is the intention of these gentlemen to keep at all times a large supply of wood for the accommodation of our citizens.

A NATIONAL BANK.—Our business men and citizens generally will be pleased to learn that the Bank of Stillwater has been converted into a National Bank with a capital of \$50,000.

Chas. Schaeffer, President; Louis Hoopes, Vice President; O. R. Ellis, Cashier. We learn that the bills are expected soon, when they will be immediately issued, and the Bank will commence business under the National organization.

LOOK OUT FOR BURLARS.—Suspicious characters have been seen prowling about the dwellings of our citizens on Schoolhouse Hill and in other parts of the city, apparently with no good motive. In some cases, attempts have been made to effect an entrance into houses during the night. It is perfectly safe for our people to be on their guard, and prepared to give these fellows what they are not in search of. If any ruffian proposes to burglariously enter our domicile, we advise him to take out an accident policy before making the attempt.

MINNESOTA APPLES.—E. W. DORRIST, Esq., residing on Schoolhouse Hill, has a number of Dwarf and Crab apple trees, which are in full bearing this season, and promise a fair yield.

The Dwarfs are very large and fine, although the trees are yet young, being only in the third year of growth. But little care is necessary to protect them from the severe cold of our Northern winters.

There is no reason why all the various species of hardy fruit can not be successfully grown in Minnesota.

THE LAKE CITY LEADER.—This is the name of a paper just issued at the place above named, by T. H. PERKINS, formerly of this city, and Mr. McMASTER, they having bought out the *Lake City Times* at that place. They are both practical printers, and have had considerable experience as writers. We are in receipt of their first issue, which presents an excellent appearance, and we gladly place the *Leader* among the list of exchanges. Boys, you have our best wishes.

A HEAVY RAIN.—We have never witnessed a more persistent and persevering rain storm than the one of last Saturday. It commenced early in the morning, and continued with scarcely any let-up, throughout the entire day. Oil-cloth coats and umbrellas were at a premium, and our dealers were able during the day to close out their entire stock of the latter article.

As one of the consequences of the storm, we notice the lake again on the rise, and we are fearful that the crops must have received more or less damage from the strong wind which sprang up about the time the rain ceased.

The population of Stearns county is about 8,000. The population in 1860 was 4,505.

BABY TENDER.—We call the attention of our readers to the advertisement of this wonderful contrivance, in another column.

The cut which is seen in the advertisement represents but one of the many articles into which the "Baby Tender" may be almost instantly converted. In the December number of the *American Agriculturist* will be found pictorial representations of every transformation of which the Tender is susceptible, with full and elaborate descriptions. A copy of that paper may be seen at this office.

Notice what the N. Y. *Independent*—good authority, by the way—says of it: "We do not speak from hearsay when we aver that of all labor-saving, health-preserving, sleep-inducing, quiet-restoring contrivances for the use of mothers and children, Brown's Patent Baby Tender stands unrivaled."

The editor further states that for more than two years he has witnessed in his own family its practical advantages, and feels he by calling many of his readers a favor by doing attention to it.

The Baby Tender is indispensable to those having the care of infants or small children.

Read the advertisement.

THE LUMBER BUSINESS.—On account of the ruinous state at which logs are selling in the markets below our lumber dealers have, by mutual consent, almost entirely suspended operations. We understand it is the intention of the log-owners to send no more rafts below until the prices are advanced. The lake, as well as the main boom, is full of logs, and rafts are still sitting up, but probably not with the intention of going below at present.

WARSAW HERALD.—This paper appears this week with a new head greatly improved typographically and otherwise, with the names of E. W. GURLEY and FRANK DAWSON, as editors and proprietors. They have adopted the style which is the one most in vogue now among the best country papers, of printing the local and most of the other editorial matter on the first page. We have a pretty extensive acquaintance with FRANK, who is an old printer and editor, and we do not doubt, will succeed. Mr. GURLEY we only know from reputation, and from his communications to the *Herald* over the non de plume of "Bayonet." He has established a reputation during the war as an able and vigorous writer. Success to the new firm.

A NEW SASH LOCK.—We were shown, a few days since, by our enterprising friend, W. M. CAPRON, a new invention for either fastening window sash down, or holding them securely at any point of elevation. It is very simple in its construction, cannot get out of repair, and will last a long time. They are attached to the sash with a single screw, and is but the work of a minute.

The cost is but a trifle, and when we take into account the security and convenience of having a window firmly fastened wherever it is left, as compared with the insecurity and unpleasantness of propping up the sash with sticks, which are liable at any time to be knocked out, allowing the window to come down on the children's heads, hands or arms, the cost should hardly be considered for a moment.

Mr. CAPRON has obtained the agency of the lock for this city and county, and is prepared to furnish them in any quantities. He has also a model, showing the working of the lock, which can be seen at his store.

—An unknown correspondent sends us the following glowing poetical effusion, desiring its publication. We trust some of our readers, who have poetical aspirations, and who very naturally look with jealous and envious eyes upon every new rival who enters the field, will read to us closely the measure and rhythm. For we assure all such that, although the modest author may stand in the poetry can't. Some may even object to making "Minnesota" rhyme with "Winona," but don't "so" rhyme with "na," and "ta" with "na"? That settles it!

We admit that the last line of the third verse contains more poetical feet than its mate; but then he had just as much to say to his "dearest" about "fixing up her clothes," and couldn't very well avoid the "clothes" or the advice over on to the next verse:

Lines to —
Will travel (for name a mile)
Will see the broad prairie smile,
The happiness of my life
Has been mine, Wm. living man and wife.
We will travel to the far west,
It does not suit us, we want invest,
We will go into Minnesota,
And a part the City of Winona.
The happiness that we shall see,
No one shall share but you and me,
Now my dearest do not grieve,
But fix up your clothes, ready to leave.
The Poetry to me Sent,
On it my heart has been bent,
And not a moment of my life
But what I think of thee, my wife.

The population of Stearns county is about 8,000. The population in 1860 was 4,505.

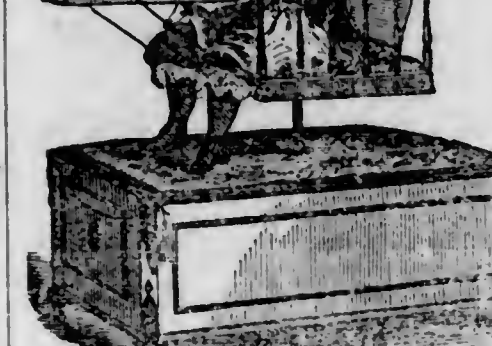

The lake is rising very fast.

MORTGAGE FORECLOSURE.
Whereas, default has been made in the payment of the money secured by mortgage, dated June 25, 1857, executed by William B. Liddell and Harriet Liddell his wife, then of the county of Dakota, Territory of Minnesota, to Dwight Mitchell of Delhi, Delaware county, New York, and which said mortgage was recorded in the Register's office of the county of Washington, Minnesota Territory, in book C of mortgages, on pages 505, 570 and 571, on the 24th day of July, 1857, at 3 o'clock P. M.

From *The Home Journal*, by N. P. WILLIS.—IT HAS COME AT LAST! a contrivance by which the best of mothers is outdone—the most untiring of nurses thrown quite into the shade.

From *The Phenomenal Journal*.—Nausea and vomiting are common complaints of infants, and this is alleviated by the use of Brown's Patent Baby Tender.

From *Lettie's Magazine of Fashion*.—The latest word out on Broadway, and one that is becoming talk of the town, is Dr. Brown's Patent Baby Tender.

From *The Advocate and Guardian*.—Dr. Brown's Patent Baby Tender is the product of many years' experience of the consideration of this important subject by an experienced practical physician, and should be in every home where there is a baby.

THE BABY TENDER.—The best of all inventions for lessening the labor and anxiety of mothers, and promoting the health and happiness of their offspring. We do not speak from hearsay when we aver that of all labor-saving, health-preserving, sleep-inducing, quiet-restoring contrivances for the use of mothers and children, Brown's Patent Baby Tender stands unrivaled.

For more than two years we have witnessed in our own family its practical advantages, and we feel that we are doing many of our readers a favor by calling their attention to it. The Baby Tender ought to be in every home where there is a baby.—N. Y. *Independent*.

Lyons' Periodical Drops!
THE GREAT FEMALE REMEDY FOR IRREGULARITIES.

These Drops are scientifically compounded fluid preparation, and better than any Pills, Powders or Nostriums. Being liquid, their action is direct and positive, rendering them a reliable, speedy and certain remedy for the most obstinate and suppressions of nature. Their popularity is indicated by the fact that over 100,000 bottles are annually sold and consumed by the ladies of the United States, every one of whom speak in the strongest terms of praise of their great merits. They are rapidly taking the place of every other Female Remedy, and are considered by all who know of them, as the surest, safest, and most infallible preparation in the world, for the cure of all female complaints, the removal of all obstructions of nature, and the promotion of health, regularity and strength. Explicit directions stating when they may be used, and explaining when and why they should not, are enclosed in each bottle, and will be found carefully folded around each bottle, with the written signature of J. L. LYON, without which none are genuine.

Prepared by DR. JOHN L. LYON, 125 Chapel Street, New Haven, Conn., who can be consulted either personally, or by mail, (enclosing the fee) concerning all private diseases and female weaknesses.

A Rich Marriage Ceremony.

From the Missouri Republican.

The following description of a mar-
riage in Illinois by a newly appointed
Justice of the Peace, who is something
of a winged, is taken verbatim from a let-
ter written to a friend in this city. He
says:

"Having been appointed to the desir-
able 'posish' of Justice of the Peace, I
was 'acosted' on the 5th of July, by a
shock looking young man, and in silvery
tones, requested to proceed to a neigh-
boring hotel, as he wished to enter into
the holy bonds of matrimony. Here
was a 'squelcher' I had never done
anything of the kind had no books or
forms, yet I was determined to do
things up strong, and in a legal manner,
so I proceeded to the hotel, bearing in
my arms one copy of the Revised Stat-
utes, one ditto Webster's Unabridged
Dictionary, one copy of the Bible, a
small copy of the creed and articles of
Faith of the Congregational Church, one
copy of Pope's Essay on Man, and a
sectional part of the map where the vic-
tor lived. Having placed a table in the
middle of the room, and seated myself
behind it, I, in trumpet tones, called the
case. With that the young man and
young woman, with great alacrity
stepped up before me. Having sworn them
in the dictionary to answer well and
truly all the questions I was about to
ask, I proceeded. I told the young man
that, being an entire stranger, I should
have to ask him to give bail for the cost.
Having heard this so frequently in court,
I thought it indispensable. He answered
if I meant the fee for performing the
ceremony, he would deposit it then and
there. I told him to know exactly what
I did mean, I magnanimously waived
that portion of the ceremony. I then
told him it would be necessary for him
to give bail to keep the peace. This he
said he was willing to do when he ar-
rived at home, and I then waived that
point also.

Having established to my satisfaction
that they wanted to get married, and
that they were old enough to enter into
that blessed state, I proceeded to tie the
knot. I asked him if he was willing to
take that woman to be his wife. He said
he was. I told him I did not require
him to be so sure, that he might re-
flect a few minutes if he wished. I told
him she looked like a fine girl, and I had
no doubt but she was, but if the sequel
proved that he had been taken in, I did
not want to be held responsible. I said
he must love, honor and obey her as
long as she lived. He must not be
"snappy" around the house, nor spit
tobacco juice on the floor, all of which
he promised faithfully.

"Now," said I, "Georgina, (her
name was Georgina), you hear what
Humphrey says. Do you accept the
invitation to become his wife; will you
be content to love him, and cherish
his virtues; will you never be guilty of
throwing furniture at his head for slight
offenses, and will you get three meals a
day without grumbling?" She said she
would. I then asked if they had any
witnesses, and they said they had.
They said they had. Having read the creed
and articles of faith, as aforesaid, I ex-
claimed, "Humphrey, take her, she is
yours; I cannot withhold my consent."
Georgina then stepped into the arms of
your Humphrey, you can defy the scold
and jeers of the world.

I then read a little from the "Essay
on Man," including that passage, "Man
wants but little here below, little wants
and little long." As a finale to the
scene, I delivered the following exordium:
"In God's peace, sin no more."
The generous Humphrey having placed
a fifty cent check in my unwilling
palm, I bade the happy pair a final
adieu.

The Latest Dodge.
The latest trick is performed by a
man and small child, the latter in rags,
and the former in a well-worn uniform
of blue, with one sleeve empty, the miss-
ing arm being carefully hidden away
under the coat. The plan of the opera-
tors is for the man personating the sol-
dier to sit in the ladies' cabin of the
boat in such a way that the child, in its
constant begging, approaches him first,
soliciting alms. The false soldier lis-
tens to the brief tale told in an under-
tone by the child, questioning him very
loudly, and at last pulling a well-worn
and well-filled pocket book from his
bosom, hands it to his nearest neighbor
and asks him (being himself unable to
handle the pocket book with his single
hand) to give the child ten or twenty
cents. The beggar knows enough
of human nature to take that sum in-
variably excites the sympathy of the
spectators, who are ashamed not to give
after seeing the "poor soldier" do so,
and the child generally manages to get
quite a respectable sum of postal cur-
rency.

This repeated once or twice a day at
each ferry about the city, gives the ras-
cal fellow a very nice income. Some of
these people make from eight to ten
dollars per day.—N. Y. Cor. Cl. Gaz.

Says Josh Billings: "There is one
kind of kissin that has always been deemed
extra hazardous [in point of law] and
that is kissin your neighbor's wife. Giv-
ing the wife's consent don't seem to
make the matter any the less risky."

—To marry two wives is bigamy,
to marry twenty is Biglismy.

Joe Kimball.

From the Washington County Herald.

This "Comedian Artist" favored our
city with his presence for "several days
last Friday." His first performance
was on Main street in front of the Post
Office. Mounted on a stone box, he
sought assayed to charm the populace with
the melody of his dulcet vocal powers.
The populace was willing to be charmed,
but its musical taste had been so sadly
neglected that it was unable to appre-
ciate Joseph's melodious tones; where-
upon Mr. Kimball confessed that he
"couldn't sing much to-night. Had
broken his string, in that line, but he
would do better to-morrow night."

With a worthy determination to be a
public benefactor, Joe next offered to
cure all the "ills that human flesh is
heir to," by disposing of diminutive bot-
tles of Pain Exterminator. But as the
audience could buy bigger bottles else-
where for less money, Joseph's medical
operations were not eminently suc-
cessful.

With tactics worthy a Major General,
Joe again changed his base and played
the "funny man." But he was neither
so funny as he anticipated, nor so hilari-
ous as his audience demanded. Mr.
Kimball again apologized, stating that
he "had a bully good time at Read's,
last night, got drunk, and hadn't got over
it yet. Broke his string in that line too,
and couldn't be very funny to-night, but
would show 'em lots of fun to-morrow
night."

Joe is like Little Mac's brilliant vic-
tories. He must be seen to be appreciated.
He is a personage of goodly appearance
and jovial aspect. We should judge
that some thirty summers and winters
had gently touched his youthful brow.
He has laughed and grown fat; prob-
ably his physical expansion is due, more
to his being a judge of good living than
to his laughing proclivities. Joseph is
about five feet thirteen, around the most
prominent portion of his corporeal sys-
tem. Joe will never be hung; he has
no neck, his well poised head being in-
stantly connected with his symmetrical
body; nevertheless, what Mr. Kimball's
neck lacks in length is amply compensa-
ted by its dexterity. He has the facul-
ty of facing square about, and looking
in the opposite direction, without mov-
ing his torso. He is the first man we
ever saw who could jerk his head so far
around as to gobble a moustache from
under his left ear. This little feat Je-
seph performed repeatedly, and with an
easy satisfaction to all present but the
musketees.

Joe, you must not indulge in the idea
that we entertain feelings of malice to-
ward you because you did not give us a
complimentary ticket. We admit you,
and have no doubt that you are a much
better fellow than we think you are; and
to show our good will we give you a bit
of friendly advice.

You are big enough, handsome enough,
and sharp enough to earn an honest
living, which you can do by charging your
present profession. Get a "new
string" and go to work like a man, and
stop with making night hideous with
your howlings.

Pleasures of New York Picnics.
Picnics continue to be the order of the
season. The Germans had one yester-
day at Jondal Wood, and as they only
had a dozen broken heads in their brot-
herhood, they are very much mortified,
and have determined to hold another,
when it is expected that not more than
one man in twelve will escape without a
split lip or black eye.

New York picnics are queer affairs,
and of the most varied character. All
classes, professions and trades take to
them. The sporting men (blacklegs)
had one last week, and the courtiers
are to indulge in the luxury next Sat-
urday, near the Palisade Park.

Drunkness, riots, rapes and robber-
ies are the general accompaniment of
these rural festivals, and of course, such
delicious episodes prevent them from be-
coming monotonous.

At a spiritual picnic near Weehawken
the other day, seven women were rav-
ished, two men killed, five wounded and
fourteen robbed, not only of their watch-
es and portmonies, but of their clothes
—so that they were compelled to hide
in the woods all night. In the morning
they contrived to communicate with cer-
tain persons passing in the vicinity, who
furnished them with raiment enough to
get home. No doubt those individuals
are more than ever sensible to the re-
lative emotions engendered by attending
a picnic in the neighborhood of New
York.—N. Y. Letter.

A lady went to the matron of a
public institution and selected a girl to
act as a domestic servant at her house.
When she had been in the situation a
short time the girl was sent back to the
institution with a note to the matron,
in which the following is a verbatim copy
of the letter: "As I have placed her down
Not Like Warke she Ass plenty of
something to eat An very Little to do
I am Sorry to say She is A very sorry
girl indeed I have been very much Satis-
fied with her."

A Dutchman, a few days ago, picked
up a bound volume of documents, on the
back of which was stamped, "Pub-
lic Does." "The title?" said he, "what kind
pooks vill dey print next? As I live
here is one on pup logs."

The Man Who Despised Whis-
ky Drinkers.

From the Washington County Herald.

It was on one of the river steamers,
at dinner, that an amiable manly lady
remarked, in the midst of conversa-
tion with a grave looking gentleman, on
the subject of temperance:

"Oh, of all things in the world, I de-
spise a whisky drinker!"

The gentleman dropped his knife and
fork in the ardor of his feelings, extend-
ed his hand and took hers within his
own, and with emotion that threatened
tears over the loss of ruined sons, he re-
plied with faltering words:

"Madam, I respect your sentiments,
and the heart that dictates them. I per-
mit no one to go beyond me in despising
whisky-drinking. I have been disgusted
on this very boat, and I say it now be-
fore our worthy captain there. What,
I say, can be more disgusting than to
see well-dressed, respectable, and virtu-
ous looking young men, step up to the
bar of this boat, and without the fear
of observing eyes, boldly ask for whisky,
when they know that there is in this
very bar the best old Cognac brandy!"

DEATH OF ONE OF JOHN BROWN'S RAISERS.—A Rochester (N. Y.) paper of
a late date has the following: "Last
evening a colored man by the name of
David Cunningham, who resided on the
corner of Spring and Pittsburgh streets,
died of typhus fever. He was one of
the men concerned in the John Brown
raid in Virginia, and at the time of the
arrest of that great Old Dominion ter-
rorist, he fled to Pennsylvania. He af-
terwards went to the West, working in
several different States, and a few years
ago came to this city, where he has been
employed mostly in cooking for the sol-
diers. Latterly he has been at the camp
on the Fair grounds. He was a man of
great physical strength."

The following anecdote of Ex-Gov-
ernor Wise, who is just now figuring in
Richmond for a hand in politics, is too
good to be lost:

At the railroad depot of Appomattox
Court House, just after the surrender,
Wise, with all the paraphernalia and
pomp of a rebel officer, attempted to
enter a car set apart for our own officers.
As he sought to enter he was informed
that that was "not the car for paroled
prisoners," and inquired of it if he was
not the man who hanged John Brown.

"No," was the reply. "I did not do it;
it was the law of Virginia." "Well,
you should be hanged, not only for treas-
on but for the murder of John Brown.
In a state of furious rage, Wise observ-
ed: 'Young man, I'd rather take a bullet
than those words.' The reply was:
'You can have both, but Wise took
the prisoners' cars.'

How to Serve a Dog.—A correspond-
ent says this is the way: "When at-
tacked by a bloodhound, or any other
dog, raise your left arm and let him
bite it; then instantly grasp his wind-
pipe with your right hand, and squeeze
it with all your might; that will disable
him in two seconds. He opens his
mouth to gasp, loses all power, and
falls helpless. If you wish to kill him,
keep your hand for a minute or two—he
is done! You are ready for another.
One at a time is all you need. I speak
from experience with big dogs."

The Paris correspondent of the Con-
gregationalist speaks of the joyful news
that reaches him from America—joyful
to him personally, and to his country-
men at home, and then adds: "How
different is the state of Europe! Kings
and princes feel that you have unsettled
their thrones forever. Every monarchy
and despotism has received a new shock,
from which it can never recover, while
the people are inspired with new hope.
But this is still so vague, and the dawn
of brighter days is still so uncertain, that
they tremble, and scarcely dare to put
forth their hands to grope through the
darkness."

Persons living in cities have to
wear glasses earlier than country peo-
ple, from the want of opportunities of
looking at things at a distance. Those
who wish to put off the evil day of
spectacles, should accustom themselves
to long views. The eye is always re-
lieved, and we see better if, after read-
ing awhile, we direct the sight to some
far-distant object even for a minute.
Great travelers and hunters are seldom
near sighted. Humboldt at eighty-seven
could read unaided. Sailors discern ob-
jects at a great distance with consid-
erable distinctness when a common eye
sees nothing at all.

A small clean potato, with the end
cut off, is a very convenient medium of
applying brick dust to knives, keeping
it about the right moisture, while the
juice of the potato assists in removing
stains from the surface. A better pol-
ish can be obtained by this method than
any other we have tried, and with less
labor.

—Artemus Ward says when he hears
the song, "O, come where my love lies
dreaming," he don't go. He don't think
it would be right.

Union State Convention.

A Convention will be held at Ingersoll Hall in St. Paul on Wednesday, September 6, 1865, representing the electors who have given an unqualified support to the war for the Union, who hold to the doctrine of the Declaration of Independence that "all men are created equal" and "governments derive their just power from the consent of the governed," and who by their votes placed political control in the State and Nation into the hands of the present Administration, for the purpose of nominating candidates for State officers to be supported at the next general election, and for transacting any other business that may be deemed for the public good.

Return of the Sixth and Tenth Regiments.

The Sixth Regiment arrived in St. Paul early Monday morning, and the Tenth in the evening. Both regiments met with flattering receptions by the good people of St. Paul. A large number were sick in both regiments.

Another Ship Burned at Sea.

The British steamship Glasgow, of the Inman line, left New York for Liverpool on Sunday July 30. The second day out she was discovered to be on fire. The crew and passengers numbered 250, and a vessel fortunately being near, they were all saved.

The Seventh Regiment.

This regiment returned on Tuesday last. Out of 400 men, comprising the regiment, over 100 were sick, and hardly able to move. Only 200 were able to shoulder a musket. One poor fellow died on the boat during the passage up. He lived in St. Paul, where his parents reside.

The regiment was welcomed as all the others have been, with short speeches, a display of flags, firing of cannon, and a bounteous dinner.

There was one company from this vicinity in the Seventh, but very few from this city, none, we believe, excepting Major Burr, who recruited company C, and went out as its Captain.

Excluding Colored Children from the Public Schools.

The Board of Education in St. Paul at a late meeting, resolved, with a flourish of trumpets, and many "whereas," that no children of African descent be admitted into the public schools of that city.

Whereas the *Monroe* waxes jubilant, returns the thanks of the people of St. Paul to Col. Robertson, the author of the resolution, "for disposing of this vexed question so complete and satisfactory." But it seems, after all, the "vexed question" won't stay disposed of, for a correspondent of the *Press*, in an article in that paper of Thursday, calls the attention of the Board to a clause among the legal enactments of the State of Minnesota, passed during the session of 1864, which declares that excluding a child from a public school "on account of color, social position, or nationality," shall subject a Board or teacher to a fine of fifty dollars for each offense.

The correspondent declares furthermore that this law will be enforced if there is occasion for it.

Return of the Ninth Regiment.

This regiment reached St. Paul on Friday last, and were received pretty much as the other returning regiments. Stillwater was not represented in the regiment, excepting by the Assistant Surgeon—Dr. E. G. Pugsley—who had the pleasure of meeting that evening at the International.

Gov. Miller, as usual, made the reception speech. We make the following extract, the sentiment of which we heartily endorse. Read it:

Your year of duty against the savage, your gallant part in the battles of Gettysburg, Vicksburg, Nashville and Fort Blakely, your protection of railroad communications in Missouri, and your chase after Price through several States, have distinguished you as one of the best regiments in the service, while your great loss during the Sturgis expedition and the humanity exhibited towards so many of your comrades in Southern prisons, killed the State with horror. Death under any circumstances is sad and awful, but the slow torture perpetrated upon 40,000 of our brave soldiers by the traitors against our government, is without a single parallel in civilized warfare. And how grandly those heroic men submitted to martyrdom for their country.

"They died, their brave hearts breaking slow, But self-forgetful to the last, With Union cheers 'neath treason's blow, And eyes on the darkness passed."

And yet the perpetrators of this infamous wrong have their apologists in the land; and there are journalists in Northern States, that take peculiar pleasure in notifying their readers that Jefferson Davis sleeps well, and his health improving.

In my judgment every man of prominence who assented or voluntarily contributed to this terrible outrage upon humanity, should not only sleep well, but sleep long—so long that God's last trumpet alone should disturb the habitation of his repose. "With malice toward none, with charity for all," I would hang each intelligent participant in this great crime as high as Haman—no matter whether the name of such criminal be Davis, or Lee, or "Wetzel," if he be guilty let him die the death.

You will very soon participate in making laws for your country, and I commend to your favorable consideration, a home for the maimed and disabled soldier, a system of thorough education for the orphans of our departed comrades, and such provision for their widows as shall save them from want and destitution.

Maine Union Convention.

At the State Republican Convention held in Portland, Maine, last week, among others the following resolution was adopted:

"That the Emancipation Proclamation of President Lincoln, the enlistment of over one hundred thousand colored troops, the good faith of the colored race, amidst treason and their being paid white and placed in the most dangerous places, has pledged the national honor that these people shall have in fact, as well as in name, conferred on them all political rights of freedom, and that the people of the United States will redress this pledge."

—A brother of Charles Dickens, residing in Chicago, had three children born to him last week.

Two Pennsylvania papers, finding matter very scarce, are playing a game of chess in print, making a move each week. It will not take more than three years to finish the game.

Sanders is wearing out in incarceration, and Beverly Tucker is preparing to leave Montreal, owing to lack of funds."

—On Saturday, a young man named Sylvester Irwin, killed his father and step-mother, in Doro, a village in Butler County, Ohio, some thirty miles from Cincinnati. Some difficulty arose in reference to the mother's girls splitting on young Irwin. He appealed to his father if such indignity should be allowed. The mother rushed at him with a butcher knife. He drew a pistol. The father, with a hatchet, sprang between them. The son shot his father, then his step-mother, whose throat he afterwards cut with her butcher knife, leaving them both dead. He attempted to escape, but was arrested and thrown into jail.

—The rebel General B. H. Hill, was arrested in Washington on Saturday for being "drunk and disorderly." He was fined \$10 by the Magistrate, for his offense, but being without money, he was sent to the workhouse for thirty days. To what base uses do these rebel Generals come at last.

MACKENZIE'S

Patent Auto-Propelling

CANTERING HORSES.

A Patent Horse to carry his master,

Needs no spur to make him go faster;

Runs as cheerily soon as you stride him

Ready to go whenever you guide him.

These horses run rapidly over any good road

sidewalk or park ground, with a graceful

cantering motion, propelled mainly by the weight

of the rider, alternating from the saddle to the

pedals, in the act of rising to the motion of the

horse, and with about the same amount of ex-

ercise in the ride as in riding a live horse.

They may be started, stopped short, or con-

trolled in going down hill, by the rider. They

will run up a moderate ascent, if the road is

hard and firm. They are directed by the

reins, and as the motions are identical, it is a good

mode of training for equestrianism. They are

unequaled as a means for agreeable and health-

ful outdoor exercise, all the year round, for

adults, as well as for girls and boys of two

years old and upwards. Girls ride by using the

side-saddle horse—those under ten years old

usually ride astride. The size for boys is

strong enough to carry a man of 200 pounds

weight. On the sidewalk or level ground, a

light carriage with a child in it can be attached

and drawn. Any person having but one leg

can ride perfectly well.

For prices, inquire at the office of this pa-

per, or send stamp for circular and price list.

More durable than Tin.
Roofing
Suitable for steep or flat roofs.

Roofing
Easily and rapidly applied.

The most of the materials employed in the construction of this Roofing have been used in various ways for roofing purposes for over fifteen years, and our manner of combining them into one form, which makes a roofing material, secured by Patent, increases their durability, while at the same time being manufactured by machinery on a large scale, the cost is lessened. Our Roofing is adapted to all climates, and can be applied to steep or flat roofs, old or new and by ordinary workmen at a trifling expense. For uniformity of quality, completeness of finish, facility of application, cheapness and durability, we invite a thorough trial. We also manufacture

Local and Miscellaneous News.

Rev. Mr. Hills continues his Sunday Evening Lectures on the Reformation in England. Subject next Sunday Evening—The Translation of the Scriptures. Services at 7:30 p.m.

REPUBLICAN CAUCUS.—We are requested to announce that there will be a Union Republican Caucus held at the Court House on Saturday evening Sept. 24, to elect delegates to the County Convention, to be held on Monday, Sept. 25th.

WANTED.—A girl to do housework. Apply at this office.

SALOONS.—The Prescott Journal says there are only nine saloons in that town, and the want of more is sadly felt. We could spare you half a dozen of ours, Lutz, without any serious inconvenience, as we have more than twice that number.

The Polk County Press says that large quantities of blackberries are being brought into town and sold at 12 1/2 cents a quart.

Sam, send us down a bushel, in care of Clerk Rowcliff, and draw on us at sight.

HARVESTING.—Our farmers have been very busy for a week or more past, in securing their crops. The heavy rains for the past few days have, however, interfered considerably with their work. The crops of all kinds are splendid—never better. Oats are badly lodged in some fields, and have to be cut with scythes. Wheat, Rye and Barley, generally stand up well, and will yield an immense crop.

SHOOTING DEATH.—A German named Paul Wagon, living at Houtman's Addition, died suddenly on Saturday noon, while sitting at the dinner table. He had been subject to fits for some time, and it is supposed that he died in one of these. The deceased was formerly a member of a New York regiment. He leaves a wife and one child.

LUMBERMEN'S ASSOCIATION.—The lumber dealers in this valley are about perfecting an organization under the above name, which will, no doubt, be mutually beneficial to all the members. We learn that it is the intention of the association to have agents stationed at all the principal lumber markets below, in order to take advantage of the rise in prices.

PERSONAL.—We were pleased to see the genial and good-humored countenance of our State Treasurer, Hon. Chas. Scheffer, who has been spending a few days in town, during the past week.

MR. A. MARTIN, Esq., has received the Agency of this State for the Wilcox & Gibbs Sewing Machine, and is also authorized to appoint local agents. He can be found for the present at the Post Office.

RETURNED.—Major W. H. Burt of the Seventh regiment home last week. He is very much changed in looks from his former appearance and ruddy appearance, having been sick for several months. No doubt our invigorating climate will rapidly restore him to his former condition.

Notice.

All Lumbermen in the St. Croix Valley are requested to meet at David Covert's Office in Stillwater, on Wednesday, Aug. 23d, 1865, at 2 o'clock p.m., to ascertain whether there are to be any changes in the Association, and to transact any other business that may come before the meeting. Per order of Directors.

Lost.—Three or four days since, on Main street, or between Schoolhouse Hill and the Messenger office, a small, yellow, leather covered book, containing memorandums and papers of no value except to the owner, whose name is plainly written on the outside of the cover. The finder will be suitably paid for his trouble by leaving it at the Messenger office.

Horse Lost—Ten Dollars Reward.

Left the subscriber, on or about the 1st of August, 1865, a PONY, color jet black. Had a long switch tail, and marks on his hind legs of having "interfered."

Any person finding the above animal, or giving any information leading to his recovery, will be liberally rewarded. JOHN SHORTELL, Stillwater, Aug. 17, 1865.—3c.

—We are pleased to learn that Mr. M. Webster of Stillwater has leased one of the elegant rooms in the Lyon House block, and started below yesterday for a stock of groceries and hardware.—Lake City Leader.

The lake is falling very fast, though there is still a good stage of water.

FOUND.—On or about the 10th of this month, near Staples' water mill, a tuck memorandum book, containing letters, papers and a small amount of money. The owner can have the same by proving property and paying for this advertisement.

THOS. KIPPEN, Third street, on Government Hill, Aug. 22, 1865.—2c.

ENLARGED.—The Polk County Press published at Osceola, has been enlarged to a seven-column sheet. We notice the proprietors have also made arrangements for having the inside printed at Madison, with the editorial and late news on the first page, which enables them to give a larger amount of reading matter, at a less cost. SAM. is a live editor, and gets up a good paper. He is deserving of support.

A SHOOTING AFFAIR.—A young man on board the G. H. Gray, several days since, on her trip up from Prescott, got into a row with a man by the name of Smith—who it seems had given the younger some bitter office years ago—and made some dire threats of vengeance, couched in most offensive language. The young man, who had been drinking pretty freely, finally gave Smith a blow in the face, whereupon the enraged Smith drew a pistol and was about to wrack summary vengeance for the insult, when the clerk, Mr. Brown, struck the weapon up so that the shot went through the roof of the cabin. Smith says he didn't intend to shoot anybody, but we shall wait for the result of an investigation before we can tell whether or not anybody was to blame.

A SET-TO.—A couple of strangers from below, got up a misunderstanding yesterday in one of our numerous saloons on Main street, and went for each other a la HERMAN. As the celebrated ARTEMAS WARD says, it becomes necessary in a square, lively, stand-up fight that somebody should lick, and it happened in this case to be one of the combatants. Both of the parties, however, enjoyed themselves much, until the City Marshal very rudely intruded himself upon the scene of action, and marched the two belligerents up to Justice Lutz's office, where they were persuaded to contribute each the sum of five dollars and costs for the benefit and behoof of the city of Stillwater. No doubt all the parties to the affair are satisfied.

Cow Lost—Five Dollars Reward.

Left the subscriber about ten days ago, one red cow, about three years old, had with her a young calf, of the same color. This cow has a long tail, with white on the end, and a white spot on her side.

I will pay the above reward for their recovery. Wm. Schemmely, Stillwater, August 15, 1865.

STILLWATER:

Union State Convention.

A convention will be held at Ingersoll's Hall in St. Paul on Wednesday, September 6, 1895, representing the electors who have given an unqualified support to the war for the Union, who hold to the doctrine of the Declaration of Independence that "all men are created equal" and "governments derive their just power from the consent of the governed," and who by their votes placed political control in the State and Nation into the hands of the present Administration, for the purpose of nominating candidates for State officers to be supported at the next general election, and for transacting any other business that may be deemed for the public good.

The popular vote of last fall is taken as the basis of representation—100 entitling to one delegate, and every fraction of over 500 votes, entitling to one more.

Each Regiment of Minnesota troops remaining in the service at that date will also be admitted to representation in the Convention in the same ratio of delegates to the number of votes in the organization.

The delegation will be as follows, subject to the action of the Convention with respect to unorganized counties:

Resolved, That the County Committee in issuing calls for future Conventions, be instructed not to name the time and place for towns to hold their meetings for the election of delegates at such time and place as they may see fit, by giving public notice ten days before such meetings.

It is hoped that the electors in the several towns will attend to the calling of meetings in accordance with the above resolution, and at that time will appoint proper town committees to call future caucuses.

Minnesota State Fair.

The State fair will be held this year at Minneapolis during the last week in September, on the grounds which have been purchased and laid out for the County fair. An excellent race course has been prepared, and a large dining hall is being prepared, capable of seating two thousand persons.

And furthermore, Horace Greeley has positively consented to be present and deliver an address during the progress of the fair.

Of all the specimens of German-American orthography that ever saw the light, that of a Hartford saloon-keeper is the most execrable. He has "painted him a sign," and it reads "Bodevelo Notrushi." "Positively No Trust!"

The Loyalty of the Blacks.

At a recent convention of colored men, in Nashville, Rev. Mr. Lynch, a negro clergyman, made the following vindication of the loyalty of his race: "Thirty-five thousand one hundred and thirty-three colored men have fallen in this struggle for Union. From the ground their bodies cry, 'Who testified against the would be assassin of W. H. Seward? Who put the pursuers on the track of Booth, the assassin? Who gave indications of the road which Jeff. Davis took to escape? Who informed union generals of the course, strategy, and plans of rebel generals?' Let the testimony of the generals of the army supply. They are colored men that did it."

One more argument still might be adduced, if any thing more needed, to establish the fact of the loyalty of the blacks, viz: Among the same number of people of any separate race in the United States—English, Irish, German Swedes or Norwegians—you will not find so great a number who have been in the service of this war as our firm and unflinching friends. How many poor wretches escaping from the horrible prison-pen of Andersonville or Charleston, would have furnished with hunger, or been torn to pieces by the ferocious blood hounds, or captured by their not less savage human pursuers, had it not been for the invariably friendly negroes who were always ready and willing to divide with them their last loaf of corn bread, and guide them in their way toward the Union lines.

But we hardly opine that the bitterness and most unscrupulous opponents of universal suffrage will attempt to gain say the loyalty of the negro, or to speak slightly or disparagingly of his services in our great struggle for the life of the government. It then follows, as Gen. Sherman says, that the hand that drops the musket should be allowed to pick up the ballot. What fair-minded person can object?

Gen. Grant's Visit to St. Paul.

According to previous announcement, Gen. Ulysses S. Grant, the greatest living general, accompanied by his wife, his wife and three children, Hon. E. B. Washburne and lady, and several other friends, arrived at St. Paul at nine o'clock on Friday morning last, on board the steamer Tuxedo.

Of course there was a general turnout of the citizens, the principal streets were decorated with flags and devices, the steamer was covered with evergreens and banners, and festooned with flags, presenting a gay spectacle as she approached the city.

Gen. Grant was escorted through the city, welcomed in a neat little speech by the Mayor, when the party, consisting of about twenty carriages, preceded by Great Western Band, drove up to the residence of Gen. Washburne, where a collation was served, and the great general kissed a lady at her particular request.

The whole party then paid a visit to St. Anthony, Minneapolis, Fort Snelling, and Minnehaha Falls, returning to St. Paul that afternoon, when a request was furnished at the International, after which they went aboard the Tuxedo, which immediately left.

A Prediction Verified.

In 1850, when Jeff. Davis was threatening destruction to the North as the result of secession, he one day, in an animated conversation with Gen. Simon Cameron, exclaimed: "When the South secedes, such paralysis will fall upon Northern enterprise that the grass will grow in the streets of your Northern cities!" The retort was instant: the General replied: "Mr. Davis, if the Southern States secede, utter ruin will fall upon your section. Your slaves will be liberated, and will assist in your destruction. The North will not be ruined, but I will, with my own hands, plant corn in the streets of Charleston, the cradle of treason." True to his promise, in the spring of this year, when General Cameron visited the South, he did plant the corn, hired a soldier to attend to it, and has just received a crop, with the following note from Maj. Gen. Hatch, commanding our forces in Charleston:

Hon. Simon Cameron, Dear Sir:—CHARLESTON, S. C., July 28, 1865.—Ship to-day, by Adams' Express, four ears of corn, the product of the grain planted by yourself in the early part of April.

It is poor corn at the best, probably owing to the soil. It has received every care from the gardener at the hospital, whose name is given below.

Very respectfully your obedient servant,
JOHN H. HATCH, Maj. Gen.
David Fitz Gibbon, Gardner. Ordnance Assistant, Charleston.

We have been presented by the General with an ear of the corn, which we will be glad to exhibit to our visitors.—*Harrisburg Telegraph.*

—A New Orleans correspondent says the property of John Slidell, comprising eight hundred and forty-two lots and squares of ground, with stores, dwelling houses and a banking house, were sold for \$100,410. Before the war it was estimated at \$800,000. Had the war not taken place it is estimated that Mr. Slidell would have been worth \$2,000,000.

NEWS ITEMS.

—"I mourn for my bleeding country," said a certain army contractor to Gen. Sheridan. "So you ought, you scoundrel," replied Sheridan, "for no body has bled her more than you have."

—At least one hundred letters are received daily from soldiers who suffered at Andersonville, relative to the barbarities of Wertz's keeper. His trial will not commence for two weeks.

—A New York Colonel, for drunkenness and cheating the government and his men, has been sentenced by a court martial "to be cashiered and dishonorably dismissed the service of the United States, forfeiting all pay and allowance now due or that may hereafter become due, and that he be fined the sum of \$10,000, and be confined at hard labor at Fort Warren, in Boston Harbor, for the period of three years, and also that he be forever disqualified from holding any office of honor, trust, or profit, under the government of the United States. The President has approved the action of the court martial in his case.

—"One of our worthy State Senators," says the Nashville *Dispatch*, "was attacked by the side-walk on Cherry street last night, and driven to a doorstep, where he sat until a late hour, waiting for the pavement to recover its equilibrium."

—In Milford, Mass., at a performance of "Fanchon," one evening last week, a young man, with his sweetheart on his arm, attempted to pass the doorkeeper with the announcement, "She goes in on a hen!" "What?" exclaimed the doorman. "She goes in on a hen!" It finally turned out that the young woman had furnished a hen to be used on the stage during the evening, and so the couple were allowed to pass in.

—The income of the Girard estate, in Philadelphia, is now about two hundred thousand dollars a year, and still increasing. On the 1st of January, 1894, there were four hundred and forty-five pupils in the institution, and five hundred and sixty-three on the 1st of January, 1895, when thirty-seven vacancies existed. During 1894 twenty were bound by indenture of apprenticeship; seven on trial, awaiting agreement between the employers and the pupils to become their apprentices; nine died; three had their indentures cancelled, and thirty were expelled. In February last there were one hundred and forty-two applicants for the benefits of the institution, although twice during the past four years every applicant was admitted into the college.

—Gen. A. P. Hovey, of Indiana, appointed Minister to Peru, on a salary of \$7,500 in gold, will sail immediately from New York for his field of duties. His wife, recently Mrs. Vallette, formerly the belle of Washington, and daughter of the late Secretary Smith, accompanies him.

Baer's Wife.—A woman who was examined in a bastard case in the Madison police court was interrogated by the magistrate as to whether she was the wife of the respondent. She replied, "I suppose I am his wife by breath."

—At Elgin, (Ill.), while the Lieutenant General was receiving the salutations of the people, standing on the rear platform of the car, a ruffian approached him in the garb of a farmer, seized him violently by the hand, and attempted to jerk him off the platform. Col. Babcock, who was standing on the lower step of the platform to protect the General, saw the movement, and struck the ruffian a blow on the arm with his cane, and thus compelled him to loose his viselike grip. The General was more excited by the occurrence than he was ever known to be before.

—Postmaster General Dennison will not, as many of his friends desire, be a candidate for the Senatorship of Ohio, as Mr. Sherman's successor.

HARVESTING.—The farmers in this county are pretty generally busy in the harvest field, though the work is only fairly begun. The fine weather we have had recently has been much to the farmers in ripening the grain and giving them an opportunity to prepare it for the stack. All hopes and prospects hang on the success of the wheat crop, which we do not doubt will be successfully harvested. The recent hail storm has not extensively damaged the crop, and with only few exceptions, the prospect is particularly favorable.—*Lake City Leader, Aug. 28.*

Secretary Stanton.

MR. CHAS. A. DANA, through his paper, the Chicago *Republican*, defends Secretary Stanton from the charges made against him by Messrs. Browne and Richardson, correspondents of the New York *Tribune*, to the effect that the Secretary failed to make proper efforts for the exchange of our soldiers held in rebel prisons. Mr. Browne makes the following assertion in one of his recent cards on the subject:

"Everyone is aware that, when the exchange did take place, not the slightest alteration occurred in the question, and that our prisoners might have as well have been released twelve or eighteen months before as at the resumption of the conflict."

To which Mr. Dana responds: "Mr. Browne has been entirely misinformed. When exchanges were finally resumed, all our soldiers, black as well as white, were included. The rebels at first refused to exchange the prisoners of our soldiers, and it was only after a long and difficult struggle, that Mr. Edwin M. Stanton's peculiar policy and dogged obstinacy, triumphed over their high treachery. The flag of the public proved sufficient to protect the poorest citizen that had taken up arms for its defense."

We confess to some astonishment at seeing the columns of the New York *Tribune* devoted to an assault upon a Republican officer for simply doing his duty to the humble and the weak with energy and pertinacity. But perhaps, in the view of that journal, anything is right if it only attacks Stanton.

The Chaps, Etc.—Harvesting commenced in right good earnest last week, but the rains of Saturday and Monday will delay matters not a little. The yield of wheat and oats is described as very large, and hardly before equalled. Much of it is prostrated, causing no little extra time and expense to secure the crop. Help is somewhat scarce, and commands from \$2.50 to \$3.00 per day and board, and hard to obtain at even these prices. The returned soldiers came just in time, and can find plenty of work and good pay.—*Hastings Courier, 22d.*

GEN. GRANT AT WARASHA.—On Thursday evening as the War Eagle approached Warasha the people turned out in force to get a sight at the great conqueror. When the boat landed the crowd began their demonstrations, and one of the passengers, seeing there was a good opening to introduce a joke, took off his hat and modestly received three cheers and a tiger from the enthusiastic citizens. But the imaginary *Grunt* suddenly spoiled the beauty of the affair by exclaiming, "Take Warasha in out of the boat!" The row which followed from the passengers showed how enjoyable was the sell.—*Lake City Leader.*

Colonel Cahill is in town and the business of the office will be turned over to him as soon as practicable.—*Pioneer, 22d.*

DESCRIPTION.

Local and Miscellaneous News.

ALL IS QUIET IN TOWN.—Our farmers are very busy securing their crops, and our streets, as a consequence, are very quiet and uninteresting. "The harvest is great and the laborers are few"—three dollars a day being paid to harvest hands.

COMMENCEMENT OF THE PUBLIC SCHOOLS.—All of the public schools of this city will commence on Monday next Sept. 4.

Some of my particular friends have circulated the report that I had never been married to the woman claiming to be my wife, I give below the certificate of my marriage by the Rev. B. Collins:

MARRIAGE CERTIFICATE.—This is to certify that Martin, of Reed's Landing, in the State of Minnesota, and Susan, of Reed's Landing, in the State of Minnesota, was by me joined together in Holy Matrimony, on the 20th day of May, in the year of our Lord one thousand eight hundred and sixty-five.

SIBERIAN CRAB APPLES.—We are indebted to Edward Capron, Esq., of this city, for a basket of the finest crab apples ever seen. They are of large size, and of a most beautifully delicate color. Mr. Capron has a number of trees, all doing well and promising a large yield, and he informs us that the tree from which these were picked will yield one and a half bushels.

CHANGED HANDS.—The old Minnesota House, corner Main and Chestnut streets, has been recently sold to Mr. A. Ziegler, who takes possession on the first of September next. The retiring proprietor, Mr. SEIBERTHALER, we learn, intends to remove to St. Paul. The incoming man, Mr. Ziegler, intends to make thorough repairs, and refit the house throughout, and will, no doubt, maintain the former reputation of the house.

PURE MALT VINEGAR.—Messrs. Drewry & Greig have long enjoyed an enviable reputation as manufacturers of Ale and Porter, and their success has induced them to turn their attention to the manufacture of Malt Vinegar. We have seen samples of their vinegar and believe it entirely free from the poisonous acids which are infused into most of the vinegar which is imposed upon the public under the false name of "pure elder vinegar." We hope our dealers will give Messrs. Drewry & Greig's article a trial. See advertisement.

SOMETHING NEW.—We call attention to the advertisement of the Duplex Elliptic or Double Spring Skirt, a recent invention, it has become very popular, and is rapidly obtaining the preference over other kinds in use. The rods in it are composed each of two delicate and well-tempered steel springs, which are ingeniously braided together edge to edge, the lower rods heavier, and having a double curvature. This peculiarity of construction makes this skirt very strong and durable, and also exceedingly flexible that it readily adapts itself to the form of the wearer, and allows of any amount of doubling and crushing without injury to its shape. These skirts are unquestionably the lightest, most desirable, comfortable and economical ever made. These are advantages which ladies, who have experienced the discomfort and inconvenience of single springs, will duly appreciate.

LOOK OUT FOR THEM.—Without doubt we have in our midst a branch of an extensive and very numerous gang of horse thieves, who are doing a pretty heavy business in various portions of the State, notices of which we see in our exchanges.

On Friday night last, about midnight, a daring attempt was made by two or three of this gang to steal a valuable horse from the stable of Capt. VAN VORHES. It happened—so VAN says—that he was up, watching with his roasting rifle, for a swarm of dogs that were prowling about his premises, and saw his horse taken quietly out of the stable, and after the thieves had got a short distance away, he fired a few shots over their heads, which either frightened them or the horse or both, for in a few moments the horse came galloping back to the stable with the halter flying loose, greatly delighted at his release.

We do not wish to cause unnecessary alarm, but it would, perhaps, be well for our citizens to see that their houses and stables are properly protected.

We see by our exchanges that there is a regular band of horse thieves in this State, and that a large number of valuable horses have disappeared under circumstances rendering it certain that they were stolen. We also observe that "Mutual Horse-theft Detective Societies" are being formed along the route of these fellows, and we may not be surprised to learn at any time that Judge Lynch has appointed a time and place for his court to sit as circumstances may demand.

The lake remains at a good stage.

DEDICATION.—The German Catholic Church was dedicated on Sunday last with all due ceremonies.

—The following is said to be a sure cure for neuralgia: Take two large table-spoonfuls of cologne, two table-spoonfuls of fine salt, mix them together. Every time you have any acute affection of the nerves or neuralgia, simply breathe the fumes in your nose from the bottle, and you will be immediately relieved.

GEN. GRANT AT PRESCOTT.—The boat which conveyed this illustrious General up the Mississippi stopped for a few brief fleeting moments at the city of Prescott. We find in the *Journal* an amusing account of the manner in which the people received the great man. Mr. LUTY says: "Nessell had out two rows of Chinese lanterns the whole length of his hotel," and that "BARRETT & LYFORD each held aloft a torch, formerly owned by the McClellan Club; while CHARLEY BARNES, his face radiant with joy, stood on the sidewalk with a kerosene lamp in each hand."

The Glee Club sang a welcoming song, and as the boat landed the General was greeted with cheers, and he attempted to land, but having lost his ticket, the clerk of the boat would not let him off without paying his fare, so he leaned against the Captain and listened complacently to a speech of welcome from Mr. J. M. McKee, formerly a prominent officer in the Home Guards.

The *Journal* says: "Mr. McKee stroked his mustache with becoming dignity and he felt proud to welcome the great chief to Prescott. He had never before had the pleasure of seeing the victorious leader, as imperative business had kept him from visiting the sunny South during our recent trouble. He made some further appropriate remarks, and closed by telling the General that he could get cigars of excellent flavor at the Book and Variety Store."

After the General had indulged in a little running conversation with the natives who had flocked to the landing, he requested to be introduced to Mr. CHAS. L. BARNES. Said he, "Squire Barnes, it is true, as I hear, that you are going for negro suffrage?" CHAS. replied that it was. The General congratulated him, and advised him to fight it out on that line. Said he, "Squire Barnes you are young yet, and can still do a great deal to elevate an oppressed race."

Horse Lost—Ten Dollars Reward.

Left the subscriber, on or about the 1st of August, 1865, a PONY, color black. Had a long switch tail, and marks on his hind legs of having "interfered."

Any person finding the above animal, or giving any information leading to his recovery, will be liberally rewarded.

JOHN SHORTELL.

Sullivan, Aug. 17, 1865—30.

Lost.—Three or four days since, on Main street, or between Schoolhouse Hill and the Messenger office, a small, yellow, leather covered blank book, containing memorandums and papers of no value except to the owner, whose name is plainly written on the outside of the cover. The finder will be suitably paid for his trouble by leaving it at the Messenger office.

FOUND.—On or about the 10th of this month, near Staples' water mill, a truck memorandum book, containing letters, papers and a small amount of money. The owner can have the same by proving property and paying for this advertisement.

Wanted at Saratoga—The Red Sea, to destroy Fawcett and all his hosts.

PROF. SANDS, THE MAGICIAN.—This celebrated necromancer will give one of his wonderful entertainments at the Sawyer House Hall on Saturday evening next, Sept. 2. The Professor is highly spoken of everywhere he goes; we have, however, only room for the following favorable notice from the *Press* of Aug. 19:

Another good house greeted Prof. Sands last evening. This is his last night with us, and we would advise all to attend. His feats are truly wonderful, and his entertainments are both interesting and instructive. As a necromancer he has few if any equals in this country, and we can heartily recommend his performances as well worth seeing. Don't fail to attend to-night.

—The coolness with which Mr. Barnum heard the news of the destruction of his property in New York, reminds somebody of a story of Sheridan. When Drury Lane was burned out, the wit, who was then its lessee, was delivering a speech in the House of Commons. A friend whispered the news, but it did not seem to disturb him in the least. After he had concluded his speech he walked leisurely down to the Albion Coffee House, in Covent Garden, from the windows of which he had a good view of the fire. As he was sipping his wine another acquaintance dropped in, and, seeing him, exclaimed, "Good God, Sheridan, how can you take things so coolly?" "And why not pray?" replied the wit, "it would be a—d—d hard case if a man couldn't enjoy a bottle of wine by his own fireside!"

New Skirt for 1865-6.

The great invention of the age in HOOP SKIRTS.

J. V. BRADLEY'S NEW PATENT DUPLEX ELLIPTIC (or double) SPRING SKIRT.

This invention consists of Duplex (two) Elliptic Pure Milled Steel Springs, ingeniously braided lightly and firmly together, edge to edge, making the toughest, most flexible, elastic and durable Spring ever used. They seldom bend or break, like the Single Springs, and consequently preserve their perfect and beautiful shape more than twice as long as any Single Spring Skirt that ever was or can be made.

The wonderful flexibility and great comfort and pleasure to any lady wearing the Duplex Elliptic Skirt will be experienced particularly in all crowded assemblies, Operas, Carriages, Railroad Cars, Church Pews, Arm Chairs, for Promenades and House Dress, as the Skirt can be folded when in use to occupy a small place as easily and comfortably as a Silk or Muslin Dress.

A lady having enjoyed the pleasure, comfort and great convenience of wearing the Duplex Elliptic Skirt for a single day will never afterwards willingly dispense with their use. For Children, Nurses and Young Ladies they are superior to all others. The Hoops are covered with 2 ply double twisted thread and will wear twice as long as the Single yarn covering which is used on all Single Skirt Hoops. The three bottom rods on every Skirt are also Double Steel, and twice or double covered to prevent the covering from wearing off the rods when dragging down stairs, stone steps, &c., which they are constantly subject to when in use.

All cast made of the new and elegant Corset Tapes, and are the best quality in every part giving to the wearer the most graceful and perfect Shape possible, and are unquestionably the lightest, most desirable, comfortable and economical Skirt ever made.

PRICES FROM \$95 TO \$50.

OPINIONS OF THE PRESS.

From *Harper's Weekly*.—Brown's Baby Tender.—This article of nursery furniture is different from, superior to, and supplies the place of everything heretofore used for that purpose. It is infinitely more useful than a sewing or washing machine, where there is a baby.

From *The Christian Advocate*.—Brown's Patent Baby Tender is compact, strong and durable; and to those having the care of infants or small children, it is indispensable. It is the greatest of all baby furniture, and is a healthy and pleasant exercise. It is indispensable to those having care of infants or small children.

From *The Boston Herald*.—No one who is appointed family or nursery can afford to be without Brown's Patent Baby Tender.

From *The Home Journal*, by N. P. WILLIAMS.—IT HAS COME AT LAST a contrivance by which the best of mothers is outdone—the most untiring of nurses thrown quite into the shade.

From *The Phenomenon Journal*.—Nurses and nursing are commonly supposed to be inseparable from the infantile state; all this is overturned by the use of Brown's Patent Baby Tender.

From *Littell's Magazine of Fashion*.—The latest word in cradle-making, and one that is becoming talk of the town, is Dr. Brown's Patent Baby Tender, an "unfeminine invention," as N. P. Williams phrases it.

From *The Advocate and Guardian*.—Dr. Brown's Patent Baby Tender is the product of an inventive genius, and is the most important subject by an experienced practical physician, and should be in every household where there is a baby.

The Baby Tender.—The best of all inventions for lessening the labor and anxiety of mothers, and promoting the health and happiness of our own family by its practical advantages, and we feel that we are doing many of our duties by calling their attention to it. The Baby Tender ought to be in every house where there is a baby.—N. Y. Independent.

HISTORY OF THE WORLD.

By Philip Smith, B. A.

ONE OF THE PRINCIPAL CONTRIBUTORS TO THE DICTIONARIES OF GREEK AND ROMAN ANTIQUITIES, BIOGRAPHY AND GEOGRAPHY.

Plan of the Work.
Since Dr. Walter Raleigh's edition of his "History of the World," the literature of this subject has never achieved the rank which it has now attained. There have been "Universal Histories" from the bulk of an encyclopaedia to the most elaborate treatises, in which the annals of each nation are separately recorded, but without an attempt to trace the story of Divine Providence and human progress in one connected narrative. It is proposed to supply this want by a work, condensed enough to keep it within a reasonable size, but yet so full as to be free from the limitations of an encyclopaedia. The history of the world, from the dawn of civilization to the present time, is to be treated in a series of volumes, each volume dealing with a particular period or event, and each volume being written by a specialist in that field.

The story of our whole race, like that of each separate nation, has a beginning, a middle, and an end. That story, as it were, is the story of the world. The story of the world, as it were, is the story of the race. The story of the race, as it were, is the story of the individual. The story of the individual, as it were, is the story of the nation.
